

**Foster Robotics
Team 4328**

Sponsorship Information

WHO ARE WE?

Team 4328 is a robotics team from Foster High School in Richmond, Texas, with 30 high school student members. We participate in the FIRST (For Inspiration and Recognition of Science and Technology) Robotics Competition, which is a worldwide robotics organization that include thousands of teams and hundreds of thousands of students. Our robotics program encourages innovation and fosters well-rounded life skills including self-confidence, communication, and leadership. As a non-profit organization running a high-budget program, we rely on sponsor donations, both in-kind and cash, to continue the work we do.

We Create Opportunities for Students to

- ▶ Build and compete with a robot they design themselves
- ▶ Learn to use professional hardware and software
- ▶ Develop skills such as engineering design, project management, programming, teamwork, and strategic thinking
- ▶ Qualify for over \$14 million in college scholarships otherwise inaccessible outside *FIRST+*

FIRST - "A Sport for the Mind"

The FIRST Robotics Competition combines the excitement of sports with the rigors of science and technology. Over a six-week period, students design, manufacture, assemble, program, and test a robot to perform prescribed tasks against a field of competitors. It is as close to "real world" engineering as a high school student can get. Teams compete in regional competitions and at the World Championships.

FIRST Robotics Students are

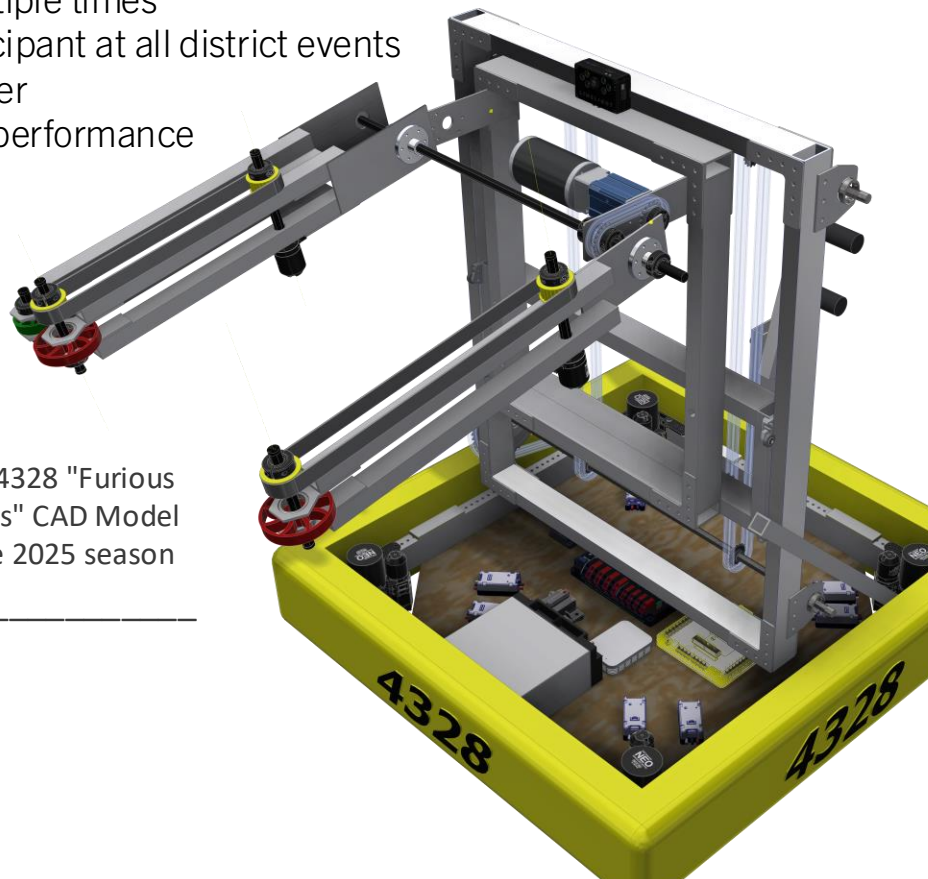

- ▶ Four times as likely to pursue a career in engineering
- ▶ Twice as likely to pursue a career in science and technology
- ▶ More than twice as likely to volunteer in their communities

Over the past 13 years, Team 4328 has

Won the Industrial Design award multiple times
Been a consistent quarterfinals participant at all district events
Been a consistent Safety Award winner
Had an upward trend in competitive performance

Team 4328 "Furious Falcons" CAD Model for the 2025 season

Benefits

Your business can be part of this revolution in science education and help *FIRST* achieve its vision of a world where STEM is valued. Additionally, the inclusion of sponsor logos on our team material generate valuable public relations for our sponsors as we compete and interact with hundreds, if not thousands, of bright, potential engineers and scientists in *FIRST* competitions.

Level	Package	Amount
Bronze	- Social Media Post - Company Logo on shirts	\$100 - \$500
Silver	- Social Media Post - Company Name/Logo on pit - Company Name/Logo on shirts	\$500 - \$750
Gold	- Social Media Post - Company Name/Logo on pit - Company Name/Logo Prominently displayed on shirts	\$750 - \$1000
Platinum	- Social Media Posts - Company Name/Logo on pit - Company Name/Logo Prominently displayed on shirts - Company Name/Logo Displayed on competition robot - Robot presence can be requested for company events after the season concludes - Company name announced as team sponsor	\$1000+
